

Our Art classes at RLA provide students an exciting opportunity to enhance their thinking skills, problem solve, explore materials, create, and discover their individual God-given gifts. Many students find a niche, or a chance to “shine” in the visual arts. Recently, I was working with some classes on a drawing assignment. I clearly remember one student, who often dejectedly struggles with school work, sitting intently focused on their drawing. After class, I sat back to look at the work the students had accomplished that day. This student had created a beautifully crafted drawing. The student was surprised, excited, and proud of what they had achieved. It is always a great moment when any student can realize an undiscovered God-given gift. Our Art program at RLA provides us with the opportunity to let all our students “shine.”
