

4-Year-Old Preschool Checklist

Rockford Lutheran School

“Igniting Minds and Souls”

A child of four years of age is developing his/her perceptual skills, cognitive ability and physical growth. The following checklist contains abilities and behaviors that will emerge as children approach age five. It's best to look at this list as goals. Don't be too concerned if your child struggles in some areas. Children grow and develop at different rates. This checklist will guide us to the appropriate placement for your child at RLA.
